

the education union

Can your voice be heard?

1 in 10 long-serving teachers and lecturers will be a patient in a voice clinic during their career, as they are **8 times more likely** to suffer voice problems than any other worker.

ATL believes it is vital that all education professionals are taught how to use their voice correctly and are calling for voice care to be made compulsory in all teacher and lecturer training courses.

So what are you waiting for?

Make your voice heard today by signing our petition at www.atl.org.uk
